Aberdares National Park: is a land of fortune and diversity. The Park got its name from Lord Aberdares, one of the founder members of the Royal Geographical Society. Located in the central highlands, west of Mount Kenya and 160kms from Nairobi, the foothills of the Aberdares National Park is covered with huge trees, which, as you go higher, gradually give way to bamboo forests. From about 3, 000 meters upward the landscape consists primarily of alpine moorland which gives way to an area of grass land with, from time to time, giant lobelias presenting an attractive contrast. Try this destination of fortunes.-and who knows? You might be the next one queen or king!

Their story was made famous by the bestselling book and award-winning movie "Born Free.

***Samburu National Reserve** is situated on the banks of the Ewaso Ngiro River in the dry northern Kenya and neighbors the homes of the Samburu tribe of Kenya, a tribe known for their remote culture, pastoral and nomadic way of life. The presence, of the Ewaso Ngiro River - and its shady trees - attracts plenty of wildlife. Giraffe, large herds of elephants, buffalo, gerenuks, gazelle, waterbuck and zebra (including the endangered Grevy's zebra) from the surrounding savannah plains trek to the water, Lion, leopard and cheetah are also quite easy to spot, thanks in part to the lack of grass cover. The reserve provides the opportunity to see wildlife that only lives in the dry north of Kenya; namely: the long necked gerenuk, Grevy's zebra, reticulated giraffe and Beisa onyx. The elusive Kenya leopard is often known to visit the park, especially in the evenings.*

***Birdlife** is as plentiful as wildlife at Samburu National Reserve, which boasts over **350 different species of birds** including vultures, kingfishers, marabouts, bateleurs, guinea fowl, Somali ostriches and others.*

Optional visit to a Samburu Cultural Village at US \$35 (price guaranteed only with advanced booking)
